

Hope During Crisis and Beyond - Central PA

Many have contacted us to tell us that our messages have given them hope during this crisis!

Our ministry plan was born out of the worldwide COVID 19 pandemic. We have seen that the people of Syria are responding to our basic streaming efforts. One family told us that they desperately needed our message of encouragement and joy. Our hope is to reach hundreds and thousands of people throughout the Arabic-speaking world.

What do we need?

Basically, we need a studio—cameras, lights, sound equipment, a computer with editing capabilities and live streaming processing equipment.

A first-rate studio will enable us to deliver quality programming to Al-Karma Satellite TV in California, who has asked us to provide such. Other satellite stations, including Set 7 and ABN (Aramaic Podcasting Network), have also shown interest in streaming our productions to their viewers. This provides the potential of impacting Arabic-speaking people in the Middle East, Europe and North America—literally millions of people.

What funds are required?

We are budgeting approximately \$26,000 for this phase of the project. We are hoping to have the studio up and running in the next two months as we will be hosting a conference in August and hope to use this studio as the central production vehicle. Please consider joining us in prayerful and financial support of this effort to expand our reach among Arabic speaking peoples throughout the world.

Budget Breakdown

This project will require investment in several cameras and video equipment, new lighting and set pieces for the studio, a computer and software for editing the video and audio content, as well as labor and other technical costs that may arise in the process.

- Audio/Video Equipment - \$13,300
- Editing Station and Software - \$3,600
- Filming Set - \$1,300
- Misc. Costs - \$500
- Labor (approx. 300 hours) - \$7,500

When can we start?

We have already begun designing and outfitting the studio. We will begin procuring the equipment as funding allows, and we will set up the studio and begin production within three months. By the end of our four-month plan, we will be distributing the content through available channels.

Objectives

We have seen from our current opportunities to simulcast conferences and share podcasts that people will listen and respond to these communication pieces. Our goal is to develop new contacts with people who are interested in the Gospel so that they may come to faith in Christ and receive biblical teaching through media.

How can you help?

Be a part of this opportunity to share the Gospel with the Arabic-speaking world through live streams and recorded video. This is a project that could change innumerable lives and help foster new, Christ-centered relationships in Central Pennsylvania and beyond. Please pray next steps in this project and visit us.worldteam.org/give to financially support this ministry!
