

Compass: Find Your Place in Missions

The INN (The International Neighborhood Network) specializes in helping people find their place in missions. We are passionate about finding ways to use your unique skills, gifts and abilities to impact the world for Christ.

Compass provides a hands-on, holistic ministry and training opportunity while serving among unreached diaspora in the US. You will be equipped to share the love of Christ in word and deed. Come, join the team and expand your relationship building, evangelism, and disciple-making skills! And, we will give you plenty of time to put your training into practice.

Where can you serve?

Compass workers will serve alongside a team of established INN workers. Opportunities are for 4, 6, or 8 months. During your time with us, we will include travel to another INN site so that you can see what God is doing in a different city.

When can you start?

The first step is to begin a discipleship and application process to help you think through ministry options. Once accepted to a team, you will raise your support and join your new team. New team members can start at a variety of times throughout the year.

Our goal: To disciple and train young adults to become leaders who will build the kingdom of God as they live out their daily lives.

What will you do?

We love to plant churches that plant churches! Paul says to Timothy, "The things which you have heard from me in the presence of many witnesses, entrust these to faithful men who will be able to teach others also." (2 Timothy 2:2)

You will be part of a team building genuine relationships in a diaspora community. Our passion is to share the gospel with those who are lost and then teach, invest in, and lift up those people to disciple others. In all that we do we aim to prepare our successors for success.

Whether it is teaching English, using your talent for the arts or communication, engaging children and youth, putting your social skills to work, job coaching, or using other skills and interests, we will train you to live out loud among unreached people. Our end goal is to help you become an effective disciple maker.

Who will train you?

Your training will be with a team of experienced church planters working in your city. In addition, you will take advantage of regular training from experts all around the world! A valuable part of Compass is the opportunity to have someone mentor and disciple you throughout your time in ministry.

Compass uses a "just-in-time" training model. As you learn from experienced workers, you will have opportunities to put what you are learning into practice. We believe that true learning takes place as you experience the joys and challenges of putting ministry strategies into action. Every step of the way, your mentor will be there to help guide you.

Some of the training highlights are:

- Learn how to effectively impact an unreached community by meeting felt needs and building genuine relationships.
- Practice sharing the truth of the gospel with unreached people coming from different world religions and worldviews.
- Discover how to disciple others who will disciple others.
- Develop a ministry strategy to reach unreached diaspora in your city.

Learning from experts all around the world is an opportunity of a lifetime!

Join the team! Impact the world by engaging a local community of unreached diaspora -our new neighbors!
